Notes: Shadowglen & Presidential Meadows are in the Manor ETJ. Certificates of Occupancy are issued in Shadowglen but not in Presidential Meadows so residential totals in Presidential Meadows are based on platted lots. Prior to 2010 the residential multiplier was 2.8, after 2010 the multiplier is 3.33. Occupancy rate for all years is 90%. 2020 projections are based on simple linear equations with growth rates based on 2006-2017 estimates. There is only 1 multifamily development, with a residential impact of 50 people.
